

Ulanda Fulford
CRCP student working
toward her bachelor's
and master's degrees at
Chicago State University.

“I refuse to let
a little hard
work keep me
from college.”

I have big goals for myself and needed help paying for school. The Chicagoland Regional College Program pays my tuition, helps with my rent and pays for my books.

**“With the CRCP,
I have no more worries.”**

The job at UPS was tough at first, but the benefits are great and my schedule doesn't conflict with school. I will become the first college graduate in my family and some day open my own occupational therapy clinic.

Like I said, I have big goals.

Click or call to learn more about the CRCP and reserve your spot at our next open house.
